

DEEPSIKHA ROY

Senior Salesforce Developer | Salesforce Application Developer

iamdeepsikha2012@gmail.com | +91 7278764483 | Kolkata, India | linkedin.com/in/deepsikha-roy-b4a08418b

PROFESSIONAL SUMMARY

Salesforce Application Developer with 7+ years of hands-on Salesforce experience designing and delivering scalable, enterprise-grade CRM solutions. Deep expertise in Apex, Lightning Web Components (LWC), Flows, SOQL, Trigger Frameworks, and Asynchronous Apex (Batch, Queueable, Scheduled). Skilled in building REST and SOAP API integrations using OAuth 2.0, Named Credentials, and External Credentials. Proficient in CI/CD practices using Copado, Metadata API, end-to-end release management, and Agile delivery methodologies. Experienced across Sales Cloud, Service Cloud, and emerging AI-driven capabilities including Agentforce and Einstein AI. Proven ability to write clean, maintainable, well-tested code and translate complex business requirements into robust, future-ready Salesforce solutions.

TECHNICAL SKILLS

Platform: Salesforce CRM

Languages: Apex, SOQL, SOSL, JavaScript, HTML, Lightning Web Components (LWC), Flows

Integration: REST API, SOAP API, OAuth 2.0, Named Credentials, External Credentials, Metadata API

Async Apex: Batch Apex, Queueable Apex, Scheduled Apex, Future Methods, Trigger Framework

DevOps / CI-CD: Copado, Git, VS Code, Salesforce CLI, Workbench, Data Loader

Security: Sharing & Visibility, Profiles, Permission Sets, Role Hierarchies, OWD

AI & Agents: Agentforce, Einstein AI, Generative AI Use Cases

Practices: Agile/Scrum, Peer Code Reviews, MVC Architecture, Governor Limits, Unit Testing, Test Coverage

WORK EXPERIENCE

Application Developer 3 (Salesforce) | Hyland

Apr 2026 – Present | Kolkata, India

- Architect and lead delivery of complex, enterprise-scale Salesforce solutions, translating advanced business requirements into scalable technical designs using Apex, LWC, Flows, and Trigger Frameworks.
- Drive Agentforce and Generative AI adoption, building AI-powered workflows that improve team productivity and customer engagement across the org.
- Mentor junior Salesforce developers and lead peer code reviews, establishing coding standards that reduced post-release defects and improved overall code quality.
- Collaborate with architects, product owners, and global stakeholders to translate business stories into robust, maintainable Salesforce solutions delivered on time.

Application Developer 2 (Salesforce) | Hyland

Jun 2024 – Apr 2026 | Kolkata, India

- Designed and developed scalable Salesforce solutions using Apex, LWC, and Flows, streamlining 10+ business processes and improving end-user experience across departments.
- Engineered Salesforce integrations with external platforms including Microsoft services using REST APIs, OAuth 2.0, Named Credentials, and External Credentials, enabling seamless cross-platform data exchange.
- Built a reusable LWC component library of 15+ components, reducing future development effort by standardizing UI patterns across the engineering team.
- Implemented asynchronous processing using Batch, Queueable, and Scheduled Apex to handle high-volume business operations exceeding 100K+ records within governor limits.
- Deployed Salesforce user stories via Copado CI/CD pipelines across multiple environments, achieving zero-defect production releases over 6+ consecutive sprints.

Application Development Senior Analyst (Salesforce) | Accenture

Oct 2021 – Jun 2024 | Bengaluru, India

- Developed and customized Salesforce features across Sales Cloud and Service Cloud using Apex, LWC, Visualforce, and declarative Flows, consistently meeting sprint acceptance criteria across 20+ releases.
- Built enterprise-scale automation using Flows, Process Builder, and validation rules, eliminating manual steps and reducing process overhead by standardizing key business workflows.
- Integrated Salesforce with 5+ third-party applications via REST and SOAP APIs, enabling seamless data exchange and end-to-end process automation across platforms.

- Optimized Apex code and SOQL queries through bulkification, governor limit best practices, and trigger framework implementation, improving system performance and scalability.
- Managed data migration and CI/CD deployments across multiple orgs using Copado, ensuring smooth releases with 95%+ on-time delivery rate and minimal business disruption.
- Maintained 85%+ Apex test coverage across all deployments and participated in full Agile SDLC — requirement analysis, solution design, development, unit testing, and production support.

Associate Consultant (Salesforce) | Wipro Limited

Jul 2018 – Oct 2021 | Bengaluru, India

- Built custom Salesforce functionality using Apex, Triggers, Trigger Frameworks, and declarative tools, supporting evolving business requirements across enterprise client projects.
- Implemented Sales Cloud and Service Cloud features including security models, sharing rules, OWD settings, and role hierarchies for 3+ enterprise clients.
- Developed automated workflows and approval processes that reduced manual intervention and improved operational efficiency across key business units.
- Created 20+ reports and dashboards providing actionable business insights, improving stakeholder decision-making and visibility into sales pipeline performance.
- Applied MVC architecture, OOP principles, and Salesforce best practices to deliver clean, scalable, and well-documented application code with strong test coverage.

SALESFORCE CERTIFICATIONS

- Salesforce Certified Platform Developer I
- Salesforce Certified Data Architect
- Salesforce Certified Sharing and Visibility Architect
- Salesforce Certified Agentforce Specialist
- Salesforce Certified AI Associate
- Salesforce Certified Platform App Builder
- Salesforce JavaScript Developer I

AWARDS & RECOGNITION

- Pinnacle Award FY22 — Accenture | Awarded to top 5% of performers for exceptional client impact and technical excellence within the Salesforce practice.
- ACE Award FY22 — Accenture | Recognized for going above and beyond project expectations with outstanding contribution to team delivery and client satisfaction.
- ACE Award FY23 — Accenture | Awarded for consistent high performance and technical leadership in Salesforce development across enterprise-scale implementations.

EDUCATION

B.Tech in Information Technology — 7.96 GPA

2014 – 2018

Kalyani Government Engineering College | Nadia, West Bengal

Higher Secondary (ISC) — Computer Science — 89.83%

2013 – 2014

National Gems Higher Secondary School | Kolkata
