

DEEPSIKHA ROY

Salesforce Application Developer

iamdeepsikha2012@gmail.com | +91 7278764483 | Kolkata, India | linkedin.com/in/deepsikha-roy-b4a08418b

PROFESSIONAL SUMMARY

Salesforce Application Developer with 7+ years of experience delivering enterprise solutions across Sales Cloud, Service Cloud, integrations, and automation. Skilled in Apex, Lightning Web Components (LWC), Flows, and API-based integrations, with a proven track record of translating complex business requirements into scalable and maintainable applications. Experienced in CI/CD using Copado, asynchronous processing, and modern Salesforce development practices. Salesforce-certified professional with expertise spanning application development, data architecture, security, and emerging AI capabilities including Agentforce.

CORE TECHNICAL SKILLS

Platform:	Salesforce
Languages:	Apex, SOQL, SOSL, JavaScript, HTML, Flows
Frontend:	Lightning Web Components (LWC), Aura, Visualforce
Integration:	REST API, SOAP API, OAuth 2.0, Named Credentials, External Credentials
Async Apex:	Batch Apex, Queueable Apex, Scheduled Apex, Future Methods
DevOps/CI-CD:	Copado, Git, VS Code, Salesforce CLI, Workbench, Data Loader
AI & Agents:	Agentforce, Einstein AI, Generative AI use cases
Practices:	Agile/Scrum, Code Reviews, MVC Architecture, Governor Limits, Unit Testing

WORK EXPERIENCE

Application Developer 3 | Hyland

Apr 2026 – Present | Kolkata, India

- Architect and lead delivery of complex, enterprise-scale Salesforce solutions, translating advanced business requirements into scalable technical designs using Apex, LWC, and Flows.
- Drive Agentforce and Generative AI adoption within the Salesforce org, building AI-powered workflows that improve productivity and customer engagement.
- Mentor junior developers and conduct peer code reviews, establishing coding standards that improve code quality and reduce post-release defects.
- Collaborate with architects, product owners, and stakeholders to translate business stories into robust, maintainable technical solutions

Application Developer 2 | Hyland

Jun 2024 – Apr 2026 | Kolkata, India

- Designed and developed scalable Salesforce solutions using Apex, LWC, and Flows, streamlining business processes and improving end-user experience.
- Engineered Salesforce integrations with external platforms including Microsoft services using REST APIs, OAuth 2.0, Named Credentials, and External Credentials.
- Built reusable LWC component frameworks, reducing future development effort and improving cross-team consistency in UI implementation.
- Implemented asynchronous processing using Batch, Queueable, and Scheduled Apex to handle high-volume business operations within governor limits.
- Deployed Copado user stories using Copado CI/CD pipelines, ensuring reliable, zero-disruption deployments across multiple environments.

Application Development Senior Analyst | Accenture

Oct 2021 – Jun 2024 | Bengaluru, India

- Developed and customized Salesforce features across Sales Cloud and Service Cloud using Apex, LWC, Visualforce, and declarative Flows, consistently meeting sprint acceptance criteria.
- Built and deployed enterprise-scale automation using Flows, Process Builder, and validation rules, reducing manual business process overhead.

- Integrated Salesforce with third-party applications via REST and SOAP APIs, enabling seamless cross-platform data exchange and automation.
- Optimized Apex code and SOQL queries through bulkification and governor limit best practices, improving system scalability and performance.
- Managed data migration and CI/CD deployments across multiple environments using Copado, ensuring smooth releases with minimal business disruption.
- Participated in full Agile SDLC — requirement analysis, solution design, development, unit testing, and production support.

Associate Consultant | Wipro Limited

Jul 2018 – Oct 2021 | Bengaluru, India

- Built custom Salesforce functionality using Apex, Triggers, and declarative tools, supporting evolving business requirements across enterprise client projects.
- Developed workflows and automation processes that reduced manual intervention and improved operational efficiency.
- Assisted in implementing features including security models, sharing rules, and role hierarchies.
- Created reports and dashboards providing actionable business insights to improve stakeholder decision-making.
- Applied MVC architecture and OOP principles to maintain clean, scalable, and well-documented application code.

SALESFORCE CERTIFICATIONS

- Salesforce Certified Platform Developer I
- Salesforce Certified Data Architect
- Salesforce Certified Sharing and Visibility Architect
- Salesforce Certified Agentforce Specialist
- Salesforce Certified AI Associate
- Salesforce Certified Platform App Builder
- Salesforce JavaScript Developer I

AWARDS & RECOGNITION

- Pinnacle Award FY22 — Accenture | Awarded to performers for exceptional client impact and technical excellence.
- ACE Award FY22 — Accenture | Recognized for outstanding contribution to team delivery and client satisfaction.
- ACE Award FY23 — Accenture | Awarded for consistent high performance and technical leadership in Salesforce development.

EDUCATION

B.Tech in Information Technology — 7.96 GPA

2014 – 2018

Kalyani Government Engineering College | Nadia, West Bengal

Higher Secondary (ISC) — Computer Science — 89.83%

2013 – 2014

National Gems Higher Secondary School | Kolkata
